LAMIDECOR

look, touch and feel

«Who we are»

Quality and innovation.

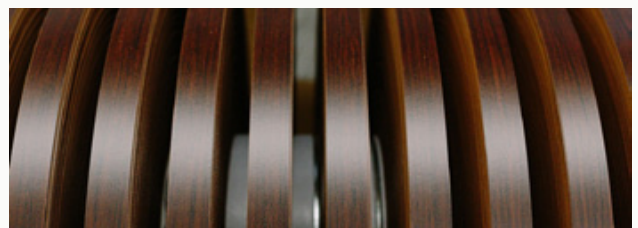

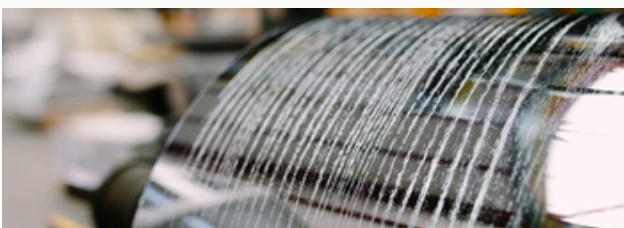

These are the two pillars on which we have built this leading **family business** in the **decorative paper coating sector**. We challenge ourselves every day to continue to evolve and to offer, if possible, a finished product that is more technical and personalised every day.

«What we do»

All stages of production control are carried out from our facilities, from the reception of raw materials to the creation of the **design, printing, impregnation, lamination, final lacquering** and shipment of the finished product. Offering full customer convenience.

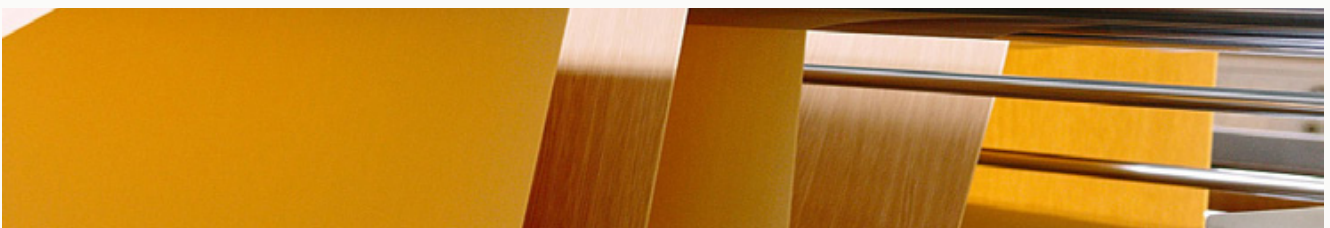

At Lamidecor we manufacture a wide range of designs and paper qualities in **finish foil**, as well as **CPL** and **vinyl** laminates with the experience of more than 38 years in the sector.

Our customers use our products **to coat all types of flat and curved surfaces**, including manufacturers of panels, doors, furniture, mouldings and skirting boards, among others.

CPL - Finish foil - Vinyl - Edgebanding

«Quality»

Customer service, stringent technical controls, continuous improvement, exclusive designs or product customisation are some of the key requirements for offering a **quality product and service**.

«R&D&I»

A culture of constant innovation allows us to achieve greater performance, better quality and service together with flexibility and the greatest possible customisation.

R+D+i allows us to get closer to your ideas to be able to offer you a much more adapted and personalised product.

«Design»

Creativity and innovation.

We have a design department that allows us to capture the smallest detail and **personalise your project**. We are strongly committed to innovation in design, adapting to customer preferences and market trends.

«Made in Spain»

Buying a “Made in Spain” product is synonym of quality.

It is a guarantee of innovation and exclusive design, of closeness, trust and a commitment to exhaustive standards and requirements. A commitment to top quality raw materials, the confidence of a stable supply, optimum customer service and sustainability.

Because when you buy a “Made in Spain” product, you are buying the design, quality and innovation that your customer deserves.

«Sustainability»

Our printing inks are made from organic materials, such as water, casein and other pigments. By avoiding solvents we not only take care of the environment, but also protect the health of our employees, the Lamidecor family.

Furthermore, we are FSC® certified (FSC® License - C115042).

COTTON CANDY 7721 SILKY

Cotton candy 7721 with silky, creates a haptic, intense matt finish that simulates the soft touch of silk.

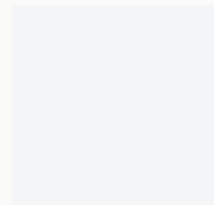

It stands out for its anti-fingerprint or easy-to-clean properties and for its good chemical and scratch resistance.

Coil width: 1250 mm

SILKY

“Silky reduces the bacterial load for both Escherichia coli and Staphylococcus aureus by 99.99 %”

FINISH

Foil

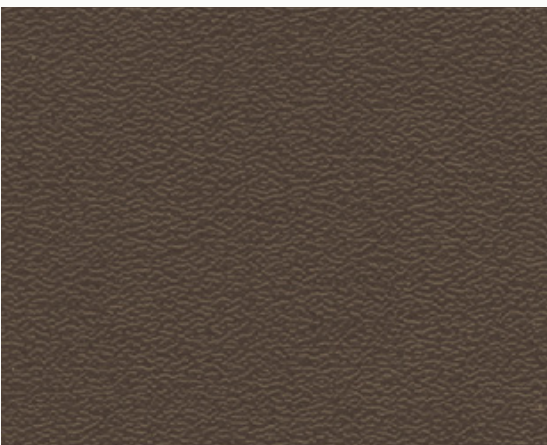

Wood

Wood finish refers to a surface treatment that mimics the appearance and texture of wood, giving a warm, natural aesthetic to the surface, whether it is furniture, flooring or objects.

Ash

A deep and discontinuous pore marking. This finish highlights the characteristic texture of the wood, creating a distinctive and visually appealing pattern.

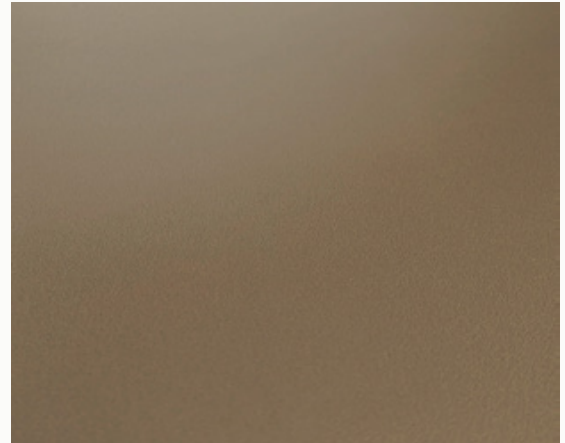

Soft

The Soft finish has a rough and irregular visual texture which is a smoothness in the overall surface texture.

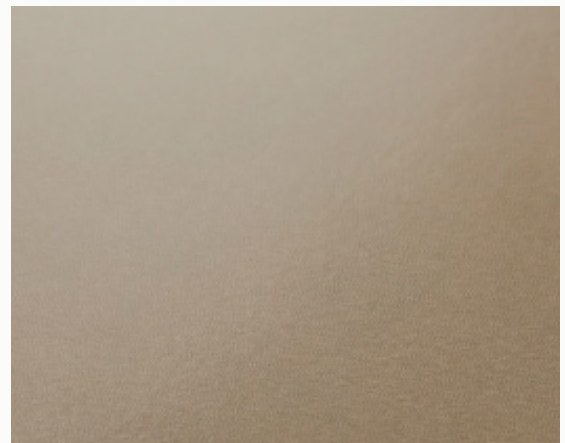

Super matt

It does not reflect light intensely and lacks glare, bringing out the texture in a remarkable way and offering a smooth, glare-free appearance.

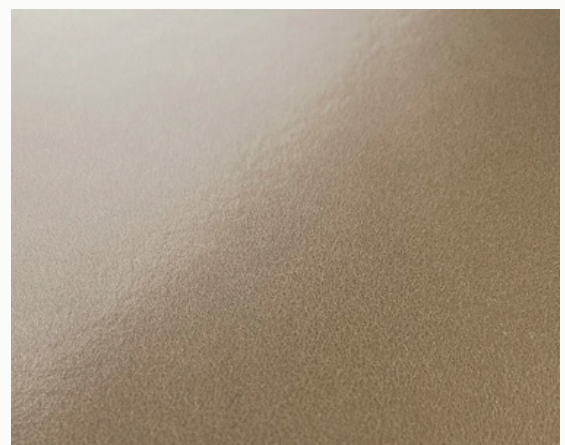

Matt

Features a slight reduction in gloss, providing a smooth, glare-free surface that elegantly and subtly highlights texture.

Satin

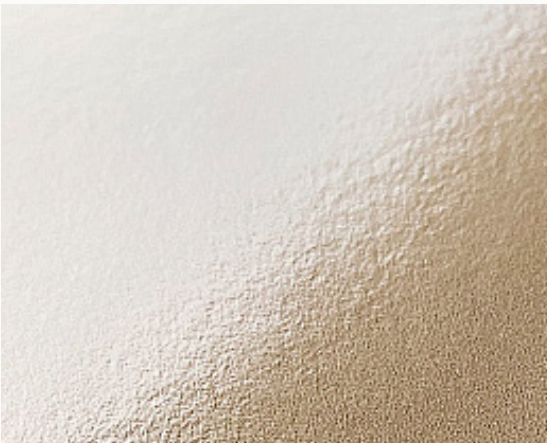

Exhibits a light luminosity that skilfully balances gloss and opacity, showing a balanced and attractive appearance.

Gloss

Intensely reflects light, providing a lustrous, highly reflective surface that highlights the brightness of the environment.

High brightness

Projects a luminous and powerful reflection of light, creating an extremely reflective surface that highlights the intensity and brightness of the environment.

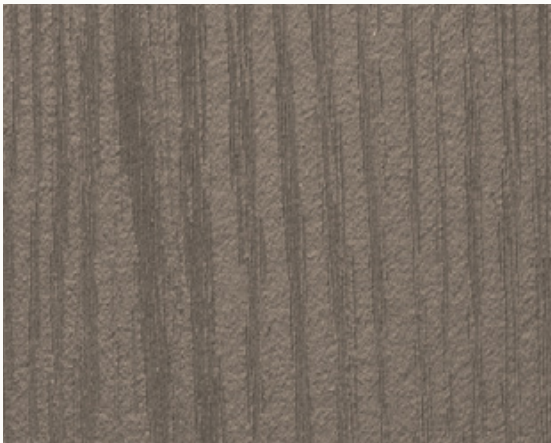

FINISH

CPL

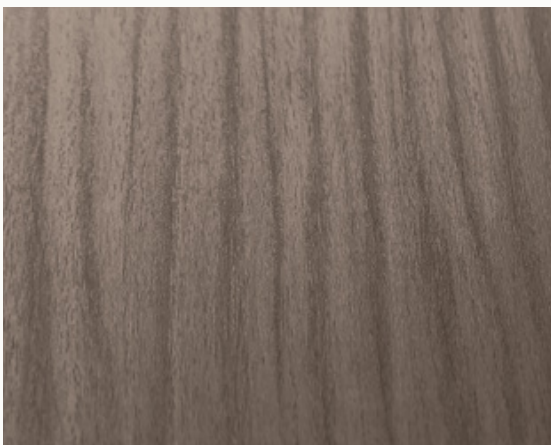

Soft Matt

The soft matte finish has an irregular visual texture, with slightly noticeable pore that maintains an overall smoothness of the surface.

Corteza

It is characterised by a deep and marked pore that imitates the texture of wood.

Monzon

This is a wide linear pore with a visual pattern of irregular bands alternating between matt and super-matt.

Brushed V and H

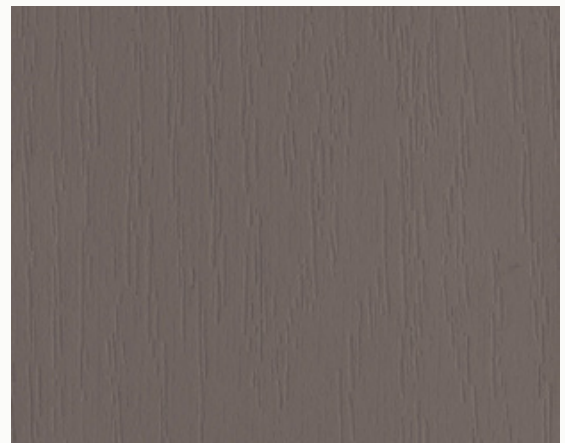

Exhibits a linear, organic grain that gives a highly natural look to any surface.

Available in vertical and horizontal.

Deep Ash

A deep and discontinuous pore marking. This finish highlights the characteristic texture of the wood.

Metallum

Simulates the brushed finish of metal, giving an industrial look to surfaces. Ideal for metallic designs..

Natural V and H

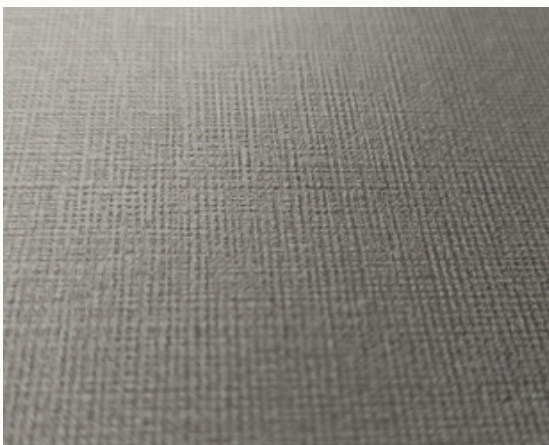

This finish captures the authenticity and versatility of wood in its purest state.

Available in vertical and horizontal.

Log

The vertical design with slender, organic lines. A natural effect for any surface.

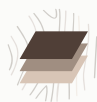

Textile

The textile pore reproduces the look and feel of natural fabrics on a surface.
